

Intent to Sole Source

Orangeburg-Calhoun Technical College
June 19, 2025

In accordance with Section 11-35-1560(a) of the SC Consolidated Procurement Code, and Section 19-445.2015 of the SC Code of State Regulations, Orangeburg-Calhoun Technical College intends to enter into a sole source contract for: Viewpoint Screening

Description of the agency need that this procurement fulfills:

OCtech is planning to renew the purchase of Document Management and Screening Service for Clinical Compliance from Viewpoint Screening to continue providing the College a bundle of services to ensure online document management and tracking for clinical compliance. Some clinical facilities require a spreadsheet of each student that tracks immunization, background checks, drug screening and required health forms. The College has not found another vendor that can provide Immunization Tracing Reports, Document Approval Override Capabilities, Clinical Report Sharing Storage of Affiliate Agreements and eLearning Modules as well as performing the required background checks and drug screening. In addition, Viewpoint Health Portal will be used to manage faculty credentials for Child Abuse Clearance, Covid 19 vaccination, CPR Certification, Glucometer Training, hepatitis B, Influenza, MMR, Tdap immunization, Varicella, and annual tuberculosis testing.

Describe the Market Based on Research Performed:

The College met with the state contract vendor Premier Biotech in the past. It was found that they only provide testing and background screenings and are not able to meet all of these needs and requirements. Viewpoint Screening is the only provider found that can provide the bundled services required by the Nursing and Health Science Programs for student and faculty records.

Description of supplies, construction, information technology, and/or services vendor will provide under the contract:

Document Management and Screening Services for Clinical Compliance

Explain why the described solution is the only solution that meets the agency's need and how no other identified solutions were sufficient.

Viewpoint Screening does not allow resellers of their services, and Viewpoint holds the rights to all materials and services provided. Due to the fact that a solution is needed for clinical requirements that encompasses all aspects of the compliance rules combined in one package, Viewpoint has been the only solution found to meet the program needs.
