\*The Learn It! Live It! QEP did not assess Associate of Arts or Associate of Science students.

The original requirements for the QEP Workforce certification included the completion of the Microburst modules in COL 103. However, because mostly developmental students took the course, we did not require 16-17 or 17-18 grads to have completed the Microburst portion. In 18-19 many programs added a Leadership course, IDS-112.
